March 21st - 25th
2025

CELEBRATING THE INTELLIGENCE OF WATER AND LIFE!

Water is Life!

Festival Aquamour Venezia

WE CARE WE DARE
A HEARTFELT PEACEFUL
& REGENERATIVE FUTURE
FULL OF LIFE

RAISING AWARENESS AND MOBILISING EVERYONE IN FAVOUR OF

- the protection of water and its ecosystems
- the regeneration of water with innovative solutions
- the evolution of society inspired by a new vision of water and aquatic ecosystems

THE AQUAMOUR VENEZIA FESTIVAL WILL BE AN OPPORTUNITY TO CELEBRATE WATER IN ALL ITS FORMS

International experts, innovators, artists and local actors dealing with the lagoon will come together to explore the vital role of water in Venice and the world.

This **open-access** festival aims to stimulate inspiration and action, positioning **Venice as a world leader** in water management and sustainable city models.

The festival is a follow-up to the second Possibilities Forum 'SUMusAqua', held on November 20, 2024 on the theme 'Water Intelligence Regenerates Venice', and aims to broaden the audience interested in this topic.

New to this edition of the festival is **biomimicry**, a cutting-edge scientific approach that draws on nature's proven models and strategies to solve human challenges.

March 21st-25th 2025

All about the festival 

Didactics & Education

Informing the public about crucial issues and solutions, with playful educational workshops and engaging water experiences that will invite young and less young to explore and understand the importance of water

Art & Culture

Interactive art exhibitions and events celebrating water in all its facets, to touch the heart and raise awareness

Science & Economics

Presenting scientists, engineers, entrepreneurs and industrialists who have already proposed innovative water-inspired solutions to global challenges

SPACE LEONARDH₂O

Mini show dedicated to aquatic BIOMIMICRY

SPACE AQUAPAVILION

Discovering the power of informed water and seawater

~ March 21st-25th

21 MARCH Start of spring

22 MARCH World Water Day

25 MARCH Foundation of the City of Venice

~ A festival for everyone

Venice residents and visitors, children, students, artists, businesses, journalists, educators, farmers, researchers, associations and authorities, with the aim of creating a broad community ready to get involved. THE AQUAMOUR VENEZIA FESTIVAL IS A COLLABORATIVE EFFORT

Space LeonardH₂O

LA FUCINA DEL FUTURO

Showroom dedicated to research and biomimetic start-ups in the marine/aquatic sector | coordinated by Giulio Pasolini

FINAPP TECH

Cosmic rays for detection, water management and optimisation in agriculture, public water management.

ALGAE SCOPE

Algae and their principles as a solution to the problem of PFAS, the eternal chemical.

University of Padova, Dpt of Marine Biology

Biomimetic approach to a lagoon micro-organism capable of cell self-regeneration, for medical applications.

PLANET

Mangrove Technology Platform for soil regeneration, drinking water and biodiversity preservation.

GAIARTA

Solar sail imitating the structure of the dragonfly's wing, providing energy autonomy for sailing boats.

CNR-ISMAR

Presentations of various research projects on the Venice-Harvard axis.

BYSO

Bio-based solutions/ materials derived from mould waste.

CEEBIOS

With a platform that connects problem solvers with the Earth's unique biodiversity.

T1 SOLUTION

The sponge principle for cleaning up oil spills at sea.

PLANCTOPOLIS

Water treatment from industry, agriculture and cities, capturing N&P nutrients, and produce microalgae biomass as biostimulant solutions for agriculture.

FIN X

Helix-free electric propulsion motors inspired by the swimming behaviour of marine mammals.

EFREN TREVISAN

A battery based on micro-organisms to take data on the state of the water, capable of regenerating the ecosystem and producing energy.

LA SERRA DEI GIARDINI REALI - THE HUMAN GARDEN

The treasures of water in all its forms, its benefits and its potential | demonstrations and coordinated meetings of Bénédicte Fumey

- **Informed water** | Renaud Ruhlmann, Emmanuel Carrière and Coco Tache
- **Seawater and marine agriculture** | Laureano Domínguez and Cindy Ballesteros
- **Special training in marine agriculture and informed water** | Laureano Domínguez, Cindy Ballesteros and Renaud Ruhlmann

📍 AQUAPAVILION opening from 9:00am til 6:00pm

- **Every hour there will be conferences on the topics of:**
Structured, informed, biodynamic water, and sea water: its benefits and marine agriculture

📍 Spazio AquaPavilion

La Serra dei Giardini Reali -

details and precise times, consult the online program

AquaProject

FÀBRICA 33 / CANNAREGIO

Initiatives coordinated independently by these associations

Abitiamo – Federica Tavian Ferrighi

Conservation is at the heart of the project, as the waste produced by dyeing the fabrics and leather of clothes is one of the main sources of water pollution in the world.

ABITIAMO is an art project rooted in the Venice lagoon (Island of Vignole), which advocates **a sustainable way of dyeing fabrics, protecting waterways and seas.**

Vaporetto dell'Immaginario – Lorenzo Parretti

The 'Vaporetto dell'Immaginario', a vehicle of art and culture between the shores and foundations of Venice, **a cultural platform floating in the rough waters of a resilient city.**

Barena Association – Allison Zurfluh

The Barena Association is dedicated to the long-term wellbeing of the Northern Venetian Lagoon, its unique wetland environment, fauna and flora, and indigenous culture and traditions.
